TR TRANSMİSYON
Gears in motion with innovation

Transmission Engineer Candidate

- B.A./M.A. in Mechanical Engineering
- Dream a carrier path in developing high precision gearboxes and related components as gears, bearing, shafts, housings etc..
- Basic knowledge of gear geometry & dynamics
- Basic knowledge of the following gear design software such as: KISSsoft/KISSsys, SMT MASTA or Romax Nexus are preffered but not required.
- Basic knowledge of GD&T & computer programs such as NX/Solidworks/CATIA
- Basic knowledge of computer languages such as FORTRAN,Matlab or Visual Basic are preferred but not required.

Who we are ?

- Located Ankara TEKNOPARK
- Founded in 2018
- 6 people
- Activities
  - Transmission Engineering Service
    (FEM, NVH, Gear Macro/Micro Analysis, Optimization)
  - Gear Test Systems
  - Gear Engineering Services
  - Gearbox Test Facilities
  - Engineering Office   HEXAGON   Romax TECHNOLOGY
