

Dear METU students and graduates,

As the leading engineering and construction company of Turkey, we are looking for Mechanical Engineers who will build their career in our company. We want to create a talent pool which contains candidates from the most reputable universities in Turkey and we are looking forward to see Middle East Technical University students and graduates on board!

In ENKA family, you can;

- Be a part of a global company of over 15.000 employees,
- Build your career in a company with experience over 60 years,
- Gain experience in corporate culture with a global management approach,
- And have access to a variety of future opportunities for working in different countries over three continents where we are currently operating.

Please send your resumes to [talentpool@enka.com](mailto:talentpool@enka.com), so that we can reach you to join us.  
We are excited to be the next part of your career journey!
