

## Engineering Trainee Program

## **ENGINEERING TRAINEE PROGRAM**

Aroona Drilling in conjunction with the Aroona Trust Foundation are launching a three-year Engineering Trainee Program commencing in September 2022 and are now inviting cv's for candidates who would like to be considered for one of the 4 places available.

### **Who are Aroona Drilling ?**

Aroona Drilling is a Drilling Contractor managing and operate the Drillship "Yavuz" on behalf of Türkiye Petrolleri Anonim Ortaklığı. The company operates out of offices based in Ankara and has a core team of highly experienced oilfield personnel both onshore and offshore.

### **What is the Engineering Trainee Program ?**

Over a period of three years the Engineering Trainees will experience working alongside multiple disciplines on board a modern deep-water drillship. The ETs will enter an equal time rota (typically 28 days on 28 days off) on board the Yavuz, they will work their way through the 3-year program (an overview of which is attached). During their 28 days on shore, they will be expected to spend approx. 1 week attending technical courses or working alongside various onshore departments.

The candidates will learn how to maintain, operate and manage a highly complex drilling vessel. It is important to understand at this point that the candidates will not be involved in well design, reservoir engineering etc that at this time remains in the domain of the Oil and Gas company not the Drilling Contractor.

On successful completion of the 3 year program the ETs will be considered for junior management positions either onshore or offshore depending on both Aroona's and the ETs preferences and requirements.

### **Who are we looking for ?**

- We are looking for up to four degree qualified trainees, who will hold a technical based degree such as mechanical, electrical or petroleum engineering.
- Proficient in both written and spoken English
- The opportunity is open to both male and female candidates.
- Self-determined, hard-working individuals who are willing to start at the bottom and work their way through the fast track training program.
- Physically fit, able to pass an offshore medical, able to initially undertake manual work.

### **How to Apply**

In the first instance submit a cv and a letter of application explaining why you believe you should be one of the candidates to be selected for the position.

Applications should be submitted by e-mail to

[ETPapplication@aronadrilling.com](mailto:ETPapplication@aronadrilling.com)

By no later than Friday the 1<sup>st</sup> of July 2022

### **Schedule**

- Letters of application and cv to be submitted by no later than Friday the 1<sup>st</sup> July 2022.
- A shortlist of candidates will be drawn up by Thursday 7<sup>th</sup> July.
- Shortlisted candidates will be invited to attend a presentation and interviews around the 27<sup>th</sup> and 28<sup>th</sup> July 2022.
- Successful candidates will be notified by the 9<sup>th</sup> of August.
- Employment date will commence on or after the 1<sup>st</sup> of September (exact date is not critical to allow for any prior commitments the successful candidate may have)

## ETP Overview
